## Trailing 12-Month Net Returns

Notes: Past performance is not a reliable indicator of future performance. Numbers presented are subject to rounding.

1. As at close of business month end. 2. Net Returns are based on the monthly movement in NAV unit price plus distributions divided by the average month end NAV's across the respective time periods, after taking into account all fees and costs, does not assume reinvestment of distributions. NAV is unaudited. Returns are annualised if over one year. No allowance has been made for entry fees or taxation. 3. Target return is RBA cash rate + 4.00% (net of fees). The Target return represents a goal of the Trust, there is no guarantee this will be achieved. 4. The payment of monthly cash income is a goal of the Trust only and the Responsible Entity does not provide any representation or warranty (whether express or implied) in relation to the payment of any monthly cash income. 5. Represents total LVR of loans in the portfolio, based on the Trust's share of the underlying loan investments, and cash. 6. Weighted average term to final maturity based on share of underlying loans. 7. Weighted average senior loans based on share of underlying loans investments, as a percentage of of Trust's loan portfolio. 8. The Trust targeted a 6.00% net return since the commencement of monthly distributions in April 2021, the Target return was updated to RBA cash rate +4.00% p.a. (net of fees) in September 2024, all historic returns are compared to the Trust's current Target return. 9. The Trust is a different class to cash which is displayed by the RBA cash rate, accordingly, the Trust is of a higher risk than an investment in cash. 10. 31 March 2021, being date of first loan deployment following 360 Capital FM Limited taking over management of the Trust.

11. Net Returns are based on the monthly movement in NAV unit price plus distributions divided by the average month end NAV's across the respective time periods, after taking into account all fees and costs, does not assume reinvestment of distributions. NAV is unaudited. Returns are annualised if over one year. No allowance has been made for entry fees or taxation. 12. The Trust does not have any current borrowings, however the Trust may take on gearing for liquidity and working capital purposes. Gearing in the Trust will not exceed 30% of GAV of the Trust. The Trust has not historically had any gearing since 360 Capital took over management of the Trust in September 2020. 13. As disclosed in the Notice of Meeting to approve the Off-Market Buy-back dated 26 November 2024, it is the Responsible Entity's intention to conduct an off-market buy-back for the Trust on a semi-annual basis until such time as the Trust's market capitalisation reaches \$100 million. However, the Responsible Entity will have regard to market conditions, the capitalisation of the Trust and other factors in determining whether to conduct the Off-Market Buy-Back at a given time. The Responsible Entity may, for instance, post-pone or otherwise cancel the Off-Market Buy-Back in circumstances including where the Responsible Entity determines that conducting the Off-Market Buy-Back may not be in the best interests of Members, materially prejudice the Trust's ability to pay its creditors, prevent the Trust from discharging any indebtedness or prevent the Trust from conducting and growing its business.
